

Grant settlement

In order to settle the grant, go to the [Settlements](#) tab and select the grant you want to settle or from the menu in the selected grant, select the **Settlement** tab.

The screenshot shows the PLGrid Portal interface for grant settlement. On the left is a dark sidebar with navigation links: Profile, Affiliations, Services, Research team, Certificates, Projects, Subordinates, Grants (selected), List, New Grant, and Settlements. The main content area is titled 'Grant settlement' and includes a back arrow. Below the title is a sub-header 'Basic Information' and a list of resources: CPU - Prometheus, CPU - Zeus, Storage - Prometheus, Storage - Zeus, CPU - Topola, Storage - Topola, CPU - Eagle, Storage - Eagle, and CPU - Tryton. The right side of the interface contains a form for adding publications. It has a heading 'Grant settlement' and a sub-header 'To send a grant settlement, specify whether any publication has been created.' Below this are four sections: 'Publication', 'Conference presentation', 'Dissertation', and 'Diploma Thesis'. Each section has an 'Add +' button and an 'Add publication declaration +' button.

When settling the grant, you should **Add** publications that have been created or **Add publication declaration** to declare publications that will be published in the upcoming year.

Grant settlement

To send a grant settlement, specify whether any publication has been created.

Add settlement item

When adding a publication, you must declare that it was created with the support of our Infrastructure. If access to the publication is open, you can skip adding the pdf file with the publication.

You can accept publication with **Add settlement item** button.

If there is no publication related to the grant, check the box "No publication was created under the grant".

The last step of the settlement is the **Rate your grant** section. This should be a feedback for us regarding the users' feelings related to the Infrastructure. In the case of a low rating, please leave a comment suggesting what we can improve.

Rate your grant

Are you satisfied with the computations performed on the cluster?

Are you satisfied with the grant system?

Send settlement

To finish press **Send settlement** button.
